

In the Claims:

Please cancel claims 1-10 without prejudice or disclaimer of the subject matter contained therein.

Claims 1-10 (Canceled).

Please add the following new claims:

11. (New) A SIM card for operation with a terminal device of a mobile
2 telecommunication network, comprising:
the terminal device configured to only establish connections to fixed destination
4 or source addresses, or both;
the destination and source addresses permissible in connection with the SIM card
6 are stored in a memory of the SIM card or in a database of the mobile communication
network.
12. (New) The SIM card according to claim 11, wherein said SIM card is
2 designed as a Telematic SIM card.
13. (New) The SIM card according to claim 11, wherein the destination and
2 source addresses are phone numbers, URLs (Uniform Resource Locator) or APN's
(Access Point Name).

14. (New) The SIM card according to claim 12, wherein the destination and
2 source addresses are phone numbers, URLs (Uniform Resource Locator) or APN's
(Access Point Name).

15. (New) The SIM card according to claim 11, wherein the SIM card only
2 supports defined telecommunication services.

16. (New) The SIM card according to claim 12, wherein the SIM card only
2 supports defined telecommunication services.

17. (New) The SIM card according to claim 13, wherein the SIM card only
2 supports defined telecommunication services.

18. (New) The SIM card according to claim 14, wherein the SIM card only
2 supports defined telecommunication services.

19. (New) The SIM card according to claim 11, wherein the mobile phone
2 subscriber relationship associated with the SIM card can only be operated within a
defined virtual private network (VPN).

20. (New) The SIM card according to claim 12, wherein the mobile phone
2 subscriber relationship associated with the SIM card can only be operated within a
defined virtual private network (VPN).

21. (New) The SIM card according to claim 13, wherein the mobile phone
2 subscriber relationship associated with the SIM card can only be operated within a
defined virtual private network (VPN).

22. (New) The SIM card according to claim 14, wherein the mobile phone
2 subscriber relationship associated with the SIM card can only be operated within a
defined virtual private network (VPN).

23. (New) The SIM card according to claim 15, wherein the mobile phone
2 subscriber relationship associated with the SIM card can only be operated within a
defined virtual private network (VPN).

24. (New) The SIM card according to claim 11, wherein the SIM card
2 encompasses more than one different subscriber relationship, wherein the use of the SIM
card is assigned according to the originator principle to the respective subscriber
4 relationship.

25. (New) The SIM card according to claim 12, wherein the SIM card
2 encompasses more than one different subscriber relationship, wherein the use of the SIM
card is assigned according to the originator principle to the respective subscriber
4 relationship.

26. (New) The SIM card according to claim 13, wherein the SIM card
2 encompasses more than one different subscriber relationship, wherein the use of the SIM
card is assigned according to the originator principle to the respective subscriber
4 relationship.

27. (New) The SIM card according to claim 14, wherein the SIM card
2 encompasses more than one different subscriber relationship, wherein the use of the SIM
card is assigned according to the originator principle to the respective subscriber
4 relationship.

28. (New) The SIM card according to claim 15, wherein the SIM card
2 encompasses more than one different subscriber relationship, wherein the use of the SIM
card is assigned according to the originator principle to the respective subscriber
4 relationship.

29. (New) The SIM card according to claim 16, wherein the SIM card
2 encompasses more than one different subscriber relationship, wherein the use of the SIM
card is assigned according to the originator principle to the respective subscriber
4 relationship.

30. (New) The SIM card according to claim 11, wherein the SIM card
2 supports other services that are typically not understood to be Telematic services.

31. (New) The SIM card according to claim 12, wherein the SIM card
2 supports other services that are typically not understood to be Telematic services.

32. (New) The SIM card according to claim 13, wherein the SIM card
2 supports other services that are typically not understood to be Telematic services.

33. (New) The SIM card according to claim 14, wherein the SIM card
2 supports other services that are typically not understood to be Telematic services.

34. (New) The SIM card according to claims 15, wherein the SIM card
2 supports other services that are typically not understood to be Telematic services.

35. (New) A process of limited use of a mobile telecommunications network
2 by a terminal device, the process comprising:

using a SIM card in the terminal device;

4 said card only allowing connections by means of said card only to fixed
destination or source addresses, or both; wherein

6 the destination and source addresses permissible in connection with the SIM card
are stored in a memory of the SIM card or in a database of the mobile communication

8 network.
